Dear Third Grade Families,

We believe that the children should relax and have fun over the summer, along with maintaining the skills learned in 2nd grade! The third-grade teachers look forward to embarking on an exciting journey through third grade with our new crew! We also need you to prepare for the adventures of third grade as a lot is required at this level. In order to be ready for the journey, you will need to complete the following summer assignments by the first day of school.

READING ASSIGNMENTS

Students should complete 2 Reading i-Ready lessons each week scoring at least an 80% or better on all parts of the lesson. Completing i-Ready lessons during the summer will help ensure that students do not forget crucial second grade skills. This will also better prepare students to be ready to learn third grade standards at the beginning of the school year. Students should also read books and keep a log. Students may read books from home, the public library, and from electronic resources such as Renaissance.

Students must read at least 360 minutes in June and 360 minutes in July.

MATH ASSIGNMENTS

Students should complete 2 Math i-Ready lessons each week, scoring at least an 80% or better on all parts of the lesson. Completing i-Ready lessons during the summer will help ensure that students do not forget crucial second grade skills. This will also better prepare students to be ready to learn third grade standards at the beginning of the school year. First Math is also a great online resource. First in Math has hundreds of games that focus on math standards in each grade level. Addition and subtraction fluency is a key component in third grade. In order for students to be as prepared as possible, we ask that you work on becoming fluent in addition and subtraction facts. Make or purchase flash cards to practice the addition and subtraction facts.

iReady will be accessible until the end of June.

Have a great summer! We look forward to seeing your smiling faces in the new school year!
