

Dear Parents and Students,

My plans are online through March 27th, and I have given the necessary handouts for the next two weeks. (If you were not at school to receive the handouts, please print them from my webpage.) I intend to use my class webpages as I usually do. The online activities have been formatted to work on a computer as well as by phone. My webpage has a new tab called “Daily Updates.” Please make sure you check that tab every day in addition to the “Homework and Daily Expectations” page.

- Make sure you have your textbook, vocabulary book, and your binder.
- Do not fall behind. Make sure that you complete your USATestprep assignments on time.
- The answers to your homework will be available. Make sure that you work diligently at getting the best answers you can *before* you check for the correct answers. When you correct your work, please correct it with a different color writing utensil than your original work. You will not be penalized for having to make corrections. The corrections will let me know what I will have to review/reteach to the classes when we return.
- Enjoy your book! Make sure your bookmark/book report is ready to turn in the day we return.
- I will check my email often. Make sure you check your school email *at least* once a day.
- You may work ahead, *but make sure you check my webpage daily for updates*. See my “Daily Updates” page.
- All work you completed over break will be due the day we return. I will schedule quizzes and tests once we know when we will be returning.

I wish you and your families all the best during this time we are apart.

Mrs. Jamie Sadenwasser
