- *In 5th grade, we use interactive notebooks, which involves a lot of cutting, gluing, & coloring foldables into their composition notebooks for taking notes & organizing content. Therefore, we have asked for your support and commitment in getting all of the main supplies listed; and we will support your investment and commit to using them with your child in class.*
- *We ask for 2 sets of ear buds or headphones because in the past, when students carry them from class to class and then home; they tend to get broken, lost, or forgotten and then that becomes an issue in the classroom. They will go back home with the students at the end of the school year.*
