

## Setting Groups in Edmodo to Moderate

As students are instructed on the use of Edmodo, they should be reminded that this is an extension of the classroom. The same expectations for behavior and quality of work apply to this environment. In the event that a student does not follow the rules and decides to post something of questionable content, Groups set to Moderate allow the teacher to prevent anything showing up on the site that shouldn't be there.

To set a new Group to **Moderate all Posts and Replies**, follow these steps.

Once logged into Edmodo, click on **Create** in the Groups area to create a new Group.

Enter the information about the Group into the form fields.

Once all fields are complete, click on **Advanced Options**.

A screenshot of the 'Create Group' form in Edmodo. The form includes fields for 'Group Name' (Mr. Smith's Math Class), 'Grade' (9th), 'Subject Area' (Mathematics), and 'Subject' (All). The '+ Advanced Options' button is highlighted with a red box. A 'Create' button is visible at the bottom of the form.

Check the box next to **Moderate all Posts and Replies.**

Click **Create.**
