

Edmodo Protocol for Teachers

Edmodo is a wonderful tool to use with students. Before using Edmodo, you must do the following:

1. Inform your Principal that you would like to use Edmodo with your class.
2. After receiving the Principal's permission, please view the Edmodo for RCSS Teachers group (get the access code from your Media Specialist).
3. Make sure that you familiarize yourself with the Internet Safety rules listed on the RCSS Teachers group page.
4. Send home a letter to parents informing them of how Edmodo will be used in your classroom and getting their permission to allow their child to set up an account (a sample letter can be found on the RCSS Teachers group page in Edmodo).
