

## Fourth Grade

**Fourth Grade Goal: Continue to develop keyboarding, word processing and research skills.**

[ISTE Standards for Technology \(NETS for Students\)](#)

[ISTE Standards for Technology \(NETS for Teachers\)](#)

### The Student will....

1. Continue the development of writing, editing, proofreading and spelling using the word processor.
2. Create, edit and publish a specific assignment using a word processing program.
3. Continue developing keyboarding skills with an emphasis on additional key locations.
4. Learn effective Internet search techniques and resources.
5. Recognize that not all sources are credible. Explain how viewpoint affects bias.
6. Identify the relationship of copyright date and the value of the information.
7. Construct new knowledge based on information gathered from a variety of sources.
8. Recognize that there are a variety of ways to share information.
9. Select the appropriate media for an intended audience and purpose.
10. Effectively share information.
11. Demonstrate ethic behaviors when using information technology.
12. Develop strategies to avoid/report cyber bullying. Discuss safe behaviors in personal electronic communication.
13. Follow school district policies and other regulations when using resources, including print and digital.
14. Practice strategies to avoid plagiarism.
15. Document, with assistance, resources referenced in research.
