Kindergarten

Goal: The student will learn the basic operation of a computer and the use of associated software.

ISTE Standards for Technology for Students
ISTE Standards for Technology for Teachers

The Student will....

1. Learn the basics parts of a computer. (Keyboard, monitor, mouse and cd)

2. Learn the proper method to turn the computer on and off.

3. Learn to care for and appreciate the computer through simple applications.

4. Learn to open (double-click) and close computer software.

5. Learn to use the following keys on the keyboard: space bar, enter, letter keys

6. Find keys on the keyboard to construct sentences and type name.

7. Use the Shift Key to make a capital letter.

8. Use a variety of media and technology resources for directed and independent learning activities.

9. Understand the ethical, cultural and societal issues related to technology. (Practice safe use of technology - Discuss what is private and personal information)

10. Use a variety of software to publish student created writing.

11. Record relevant information in at least one format (writing, pictures, audio recording, or photos).

12. Recognize that there is a variety of ways to share information. There are many different types of media.
