Second Grade

Goal: Develop basic computer skills.

ISTE Standards for Technology (NETS for Students)
ISTE Standards for Technology (NETS for Teachers)

The Student will....

1. Continue understanding and application of home row placement. (Begin formal touch typing instruction.)
2. Use the computer to reinforce writing skills. Students will be exposed to activities that provide opportunities for word processing.
3. Publish samples of written work (stories, poems, etc.)
4. Be introduced to the computer terms: edit, word processor, hardware, software, CD Rom, save, delete, file, and folder.
5. Demonstrate ethical behaviors when using technology.
6. Record relevant information in at least one format: writing, pictures, audio recording, photos, graphic organizers.
7. Construct new knowledge based on information gathered from a variety of sources.
8. Recognize that there are a variety of ways to share information.
9. Select, with assistance, a format appropriate for the intended audience and purpose.
10. Effectively share information.
11. Use a variety of technology resources for independent and directed activities.
