

WELCOME to 8th Grade Science

Dear Students and Families,

Welcome to a brand new school year! Our 8th grade science team is excited to get to know each and every one of you as we embark on an engaging and rewarding journey together.

This semester, we will focus on building critical thinking and analysis skills while exploring fascinating physical science concepts as part of the 8th grade science curriculum. Success in science requires diligence in studying, as well as daily practice and application of the skills we learn. With consistent effort, mastery is within reach!

We look forward to supporting each student's growth and learning. Together, we will make this a fantastic year full of discovery and achievement.

Thank you for being part of our science community!

Warm regards,

The 8th Grade Science Team

Mrs. Favors, Dr. Stephenson, Ms. Wilkes
