

# Pre - K

**Wk of April 20<sup>th</sup> 2020**

**At-home learning, suggested activities**

**(Please engage in at least 1 area per day and it is ok to repeat areas of learning already conquered as repetition in Early childhood education is important)**

## Music and Movement

Oh no! We're going on a bear hunt!

Awesome Rainbows by Koo Koo Kangaroo

## Phonological Awareness

Beginning Sound I Spy: Take a walk around your home. Tell your child "I spy with my eyes something that starts with the /s/ sound". Repeat this with different beginning sounds!

## Literacy

Listen to A Rainbow of My Own read by Mrs. Clark's Reading Corner

Walking Water Experiment: Place 6 cups of water in a circle. Put red food coloring in a cup, leave one cup plain, then put yellow food coloring in the next cup, leave one cup plain, put blue food coloring in the next cup, and leave the last one plain. You should have colored water in every other cup. Place a paper towel draped between each cup. Watch the changes over the next few hours or days. Have your child draw a picture of what he observed.

Hint: use shorter glasses or jars and place them close together.

## Math

Roll out snakes and balls with playdough. If you don't have any on hand, you can use one of these playdough recipes to make it with items you have at home. Smashing the balls can be really fun. You may make balls of playdough and then have your child roll dice and smash that many balls. It's a great way to incorporate math into fine motor play!

## Writing

Have your child help you create a grocery list. Let your child write their own list!

Have your child draw the items listed or find and cut out pictures of the items from sales fliers.

Questions to Ask: Why did you put that on the grocery list? What's your favorite part of grocery shopping (helping look for items, putting them in the cart, placing on the conveyor belt for the cashier, unloading at home, etc)?

\*Parents, please feel free to modify these activities by taking them to an elevated level if needed. We are welcoming posts and pictures of at-home learning and as always, please feel free to reach out to me if you have any concerns. This is all new to me as well but we will get through it together.
