

County Board of Education of Richmond County
Cellular Phone (Electronic Communication Device) Agreement

School _____

Teacher's Name _____

Mobile Phone Number _____

I volunteer to bring my cellular (portable) phone to the classroom. I agree to leave it turned off when students are present or when I am on duty so I cannot receive any incoming personal calls. I will only use it for an emergency where the life or death of a student or staff member is in present danger or before and after school and during my planning time for official business only. The term emergency shall include a clear and present danger to the school and its safe operation. If it is used to call 911, another emergency organization, or the front office, I understand that I will be reimbursed by the school system for such an emergency call.

I further agree to register my phone in advance with the principal. In case of theft, I will not hold the school or the Richmond County School System responsible for replacement.
