## "IB Spotlight: Inspirational Figures embodying Learner Profile Traits"

**George Washington Carver**, renowned for his groundbreaking work in agricultural science, epitomized the IB Learner Profile through his unwavering commitment to knowledge, inquiry, and open-mindedness. As a thinker, Carver's insatiable curiosity led him to explore innovative solutions to agricultural challenges, revolutionizing farming practices. His dedication to inquiry is evident in his extensive research on crop rotation and the development of alternative crops, such as peanuts and sweet potatoes, to diversify Southern agriculture. Carver's principled approach to learning was underscored by his open-mindedness, as he tirelessly sought practical and sustainable solutions to address the economic struggles faced by farmers. His embodiment of the IB Learner Profile, particularly inquirership, knowledge, and open-mindedness, continues to inspire generations to approach challenges with a spirit of curiosity, a thirst for knowledge, and a commitment to positive change.

## Internationally Mindedness

Discover the essence of global citizenship through the IB Learner Profile! These attributes, such as being principled, open-minded, and reflective, lay the foundation for international mindedness. We teach these qualities not just as academic ideals, but as life skills that empower students to navigate an interconnected world with empathy and understanding. By embracing the IB Learner Profile, we aim to cultivate well-rounded individuals who contribute positively to our diverse global community.
